Experience

IOSight - Full-Stack Developer
2025 - Present

- Designing and developing production-grade, end-to-end full-stack web applications using Angular and C#/.NET.
- Owning feature-rich systems from architecture through deployment, including RESTful API design.
- Building and managing MySQL data applications and ETL pipelines.
- Working with microservices and event-driven architectures in scalable production environments.
- Integrating AI-powered capabilities into real-world products, including RAG pipelines, tool use, and function-calling workflows.
- Collaborating closely with multiple teams across the organization, with strong communication skills in Hebrew and English and a high sense of ownership.

Partner Israel - Full-Stack Developer
2023 - 2025

- Angular, C#/.NET.
- Designing and developing feature-rich web products with complex UX/UI, working across frontend, backend, and CMS integrations to deliver end-to-end solutions.

Reichman University - Academic Tutor and Teaching Assistant
2019 - 2021

- “Advanced Programming” course – teaching Python, Java, SQL, HTML, JavaScript, various Computer Science concepts.
- "System Programming in C and Unix" course.

IDF - Computer Systems Technician
2011 - 2014

- “TAMAM” course – computer networks, configuration and operation of routers, switches, and encryption systems.
- Managing computer systems and communication equipment.

Projects [Python]:

- Custom implementations of ML algorithms, such as tSNE and AdaBoost.
- Creation of a CNN model for predicting a song's genre, with an accuracy score of 0.85+. project report.
- Other implementations - gradient descent, decision trees, etc. (in Java).
- An AWS app that manages parking lots data and charges. GIT.
- An AWS app with a full text messaging system backend. GIT.
- Docker app of a library system with NGINX routing and load balancing. GIT.
- Personal projects – GitHub.

Education

2020
Reichman University (IDC) – *Herzliya*
B.Sc. - Computer Science

2022
Rimon School of Music – *Ramat HaSharon*
Music and performance studies

2011
Givat Ram Ort College – *Jerusalem*
Technologic Atuda Studies – algorithms and programming studies.

2010
Sieff & Marks School – *Jerusalem*

- **10 study units in Computer Science** (C# and Assembly).
- **MIT University** – MEET software engineering program in Israel (Java).
